January 21, 2004

Our congregation is looking for a summer youth intern! We have a dynamic youth program that will hopefully allow a Bible student to gain a wide range of experiences and knowledge over the course of the summer. Our youth minister, Jeff Emery, is a graduate of Abilene Christian University. The past several summers, we've had wonderful experiences with our summer interns and we're looking forward to more of the same. Jeff has a lot to offer from his experiences and training, and our pulpit minister, Tom Washburn, was also a youth minister for many years, so the learning opportunities are tremendous. The position will run from June 6th through August 15th. It will culminate with our annual youth rally, Youth Encounter. It is a paid position and we also offer room and board with a family in the congregation for the summer.

Among the opportunities for you is the chance to hone your teaching skills in either the Sunday morning or Wednesday night class atmospheres; be involved with several summer camps in various positions; accompany us on our mission trip; helping to plan and co-ordinate our summer events; develop administrative and group management skills; tons of opportunities to connect to teens and be a positive influence on them for Christ!

We hope to find a vibrant individual with a passionate desire to develop your abilities to serve God through working with our teens. We feel that we have a lot to offer a summer intern and we're praying that God will create a mutually beneficial opportunity this summer. If you are interested, please submit a cover sheet and résumé by March 31st, as we hope to make our decision by the beginning of April. If you would like more information, feel free to contact us.

in Him,
Jeff Emery
and the North Garland Youth Ministry Steering Committee
